

***How can you refer to the OCBC program or for bisphosphonate infusion?***

Obtain a referral form:

- I. On our website  
www.prohealthcr.ca
- II. Referral form by fax  
604.263.3744, toll free  
1.866.236.8030
- III. Referral form by phone  
604.263.3644, toll free  
1.866.226.6143

Complete the simple referral form and fax it us with any relevant information. You can choose a geriatric (Dr. Larry Dian) or endocrinology (Dr. David Kendler) referral. We will arrange an appointment directly with your patient, or your office can book by phone at 604.263.3644.

Your patient will have bone density testing just prior to their consultation.

*Think of the Osteoporosis Centre of BC for initial DXA evaluation of your patients at risk. We offer DXA screening studies (with clinical referral).*

***Excellence in the  
care of your  
osteoporosis  
patients***

## ***One-stop care for your osteoporosis patients***

The Osteoporosis Centre of British Columbia (a member of the Prohealth Group) is pleased to announce the opening of new facilities on West Broadway in Vancouver. Located at 150-943 West Broadway, we are close to transit routes and have plenty of underground parking. We provide a pleasant and professional environment for all patients.

### ***Excellence in bone density testing***

- No restrictions imposed, such as those seen at radiology or hospital sites
  - No 2-year wait for follow-up: we provide optimal care with annual testing if required. No complicated referral forms with unclear requirements.
- Prompt appointments
- Recall system for your patient's convenience
- BC's highest quality DXA bone density testing
  - Research-calibrated equipment maintained at the highest level of quality assurance
  - Both technologist and clinician certified by the International Society for Clinical Densitometry (ISCD)
  - We are international ISCD faculty responsible for teaching densitometry skills to operators of DXA equipment in accordance with the requirements of the College of Physicians and Surgeons of BC.
- Understandable interpretation of bone density test results by world-recognized osteoporosis clinicians
- No charges to the Medical Services Plan for DXA testing in conjunction with a clinical referral

### ***Excellence in osteoporosis clinical care***

- Choose from geriatric or endocrinology referrals
  - Expedited referral system: we can arrange the appointment directly with your patient.
  - Consultation reports sent promptly to your office
- DXA scans performed on all referred patients for the highest quality patient care
  - Only one visit required to our centre
- Comprehensive patient management
  - Patient information materials
  - Expert, up-to-date information
  - Full range of treatment options

### ***Bisphosphonate infusions at no charge to patients or MSP***

- Zoledronic acid must be purchased at a pharmacy

### ***Clinical Research***

Your patient can learn about exciting opportunities in clinical research programs.
